SUMMARY

Associate Product Engineer (HRMS) with 3+ years of combined experience across product execution, B2B SaaS platforms, and customer-facing solutions. Experienced in owning HRMS modules, translating business requirements into user stories, driving data-backed product improvements, and collaborating cross-functionally to deliver scalable features. Strong in HRMS, biometric integrations, SQL-based analysis, and UAT-driven releases.

EXPERIENCE

Associate Product Manager - iT Gurus Software

Remote

Dec 2023 - Present

Pune, Maharastra, India

- Owned and delivered core **HRMS modules** (Employee Onboarding, Attendance, Leave, Admin Controls) for **40+ client organizations**, managing the product lifecycle end to end.
- Translated HR, payroll, and business needs into **user stories, functional specs, and acceptance criteria**, partnering with engineering and QA to ship reliable releases.
- Drove **customer-led product improvements** by analyzing support tickets, HR feedback, and usage data, reducing recurring attendance issues by **25%**.
- Designed and shipped **UX enhancements** (attendance source indicators, onboarding status visibility), improving HR admin productivity by **30%+** and onboarding completion by **20%**.
- Owned **attendance system logic** (multi-source punches, shifts, late/early rules, reconciliation) and improved biometric integrations, achieving **99%+ data accuracy** across locations.
- Used **SQL and product dashboards** to guide data-backed decisions and led **UAT, production releases, demos, and client training** to ensure smooth rollouts and adoption.

Frontend Developer Intern - TwiLearn Edtech

Remote

Aug 2023 - Oct 2023

Pune, Maharastra, India

- Developed and optimized responsive web application features using **HTML, CSS, and JavaScript**, incorporating continuous user feedback to enhance overall user experience and usability.
- Improved web application load time by 40% through code splitting, lazy loading, and asset optimization techniques, resulting in enhanced user retention and engagement metrics.

UI Developer Intern - Giganox Software

Remote

Apr 2023 - Jul 2023

Pune, Maharastra, India

- Contributed to the UI development of an **ERP project**, focusing on user-friendly interfaces and functionality.
- Implemented innovative solutions to enhance system usability and performance.

Web Developer - Jan Sewa Parisad (NGO)

Onsite

Aug 2020 - Aug 2021

Hazaribag, Jharkhand, India

- Maintained and enhanced web infrastructure for **government projects**, ensuring seamless functionality.
- Provided technical mentorship and updates to live projects, meeting user requirements effectively.
